

# Introduction of the Workshop

Tetsuo Kuyama

Task Manager (Water Resource Management)/NRE

Institute for Global Environment Strategies (IGES)

# WEPA

Water Environment Partnership in Asia

アジア水環境パートナーシップ

## Purpose of the Workshop

---

- **To deepen understandings on key implementation barriers of wastewater management and actions to address them in focused country**
- **To identify possible measures/policy tools to remove/further address the key barriers and capacity development needs to implement identified possible measures/policy tools**

## Group

Group	Focused Country	Topic	Facilitator
A	Cambodia	Industrial Wastewater Management	Dr. Vicente Bassig Tuddao Jr. (Philippine)
B	Lao PDR	Domestic Wastewater Management	Dr. Cao The Ha (Vietnam)
C	Myanmar	Industrial Wastewater Management	Ms. Sirakrn Leungsakul (Thailand)
D	Nepal	Domestic Wastewater Management	Dr. Sungpyo Kim (Korea)
E	Sri Lanka	Industrial Wastewater Management	Ms. Ismail Bin Ithnin (Malaysia)

**\* Each group has 7 persons including focused country's participants and facilitator**

## Role of participants

---

### Participants from focused country

- to make a kick off presentation on issues of industrial/domestic wastewater management in their country in the Group Discussion(I) (Kick off speaker)
- to summarize the group discussion and to report the summary of the discussion in Plenary Session (I) and (II) (Reporter)

### Facilitator

- to facilitate Group Discussion (I) and (II)
- to make a presentation on possible counter measures to improve industrial/domestic wastewater management based on the experience of their country in the Group Discussion(I)

### Other participants

- to provide their comments and suggestions during Group Discussion (I) and (II) based on their experiences

## Outputs

---

- **1-2 Key implementation barriers of wastewater management in the focused country (Plenary Session (I))**
- **Possible measures/policy tools to remove or further address the selected barriers and Capacity development needs to implement identified possible measures/policy tools (Plenary Session (II))**

## Guidance for Discussions

---

### Group Discussion(I): 11:35 – 13:15

1. Self-introduction of group members (5 minutes)
2. Confirmation of role of participants (2-3 minutes)
3. Kick off presentation by the focused country (15 minutes)
4. Q&A for clarification of the presentation (15 minutes)
5. Presentation by resource person on possible counter measures to improve industrial/domestic wastewater management (15 minutes)
6. Q&A for clarification of the presentation (15 minutes)
7. Identification of 1-2 key implementation barriers of wastewater management in the focused country to be further discussed in Group Discussion (II)(30 minutes)

## Guidance for Discussions

---

### Lunch Break: 13:15 – 14:00

- To take lunch in the group and to continue to discuss to identify implementations barriers, where necessary

### Plenary Session (I): 14:00 – 14:30

- The reporter of each group will share the selected barriers to be further discussed in Group Discussion (II)

### Group Discussion (II) : 13:15 – 14:00

- To discuss on possible measures/policy tools to remove or further address the selected barriers and capacity development needs to implement identified possible measures/policy tools

### Plenary Session (II) : 16:30 – 17:20

- The Reporter of each group will make a presentation on outputs

**Thank you for active participation  
in the workshop**
